

Covid News

January 2021

We are now in a position to offer some assistance with transport to and from The Selsey Centre for Covid-19 vaccinations.

Places are limited and it is therefore vital that these places are utilised only by those people who are unable to make their own way (including those who have use of a mobility scooter) or who are not able to gain lifts from friends, relatives or neighbours.

Transport will be provided by volunteer drivers in a Covid-safe environment.

If you would like to book a place please contact Julie on 07590 060 234 but only once your appointment time and place have been confirmed.
